Steps to use the replacement mobile phone

1 Sign up

Sign up for the service on the web or by phone.

2 Delivery

The replacement mobile phone will be delivered to your specified address.

3 Procedures after receiving the replacement mobile phone

For the various procedures you need to take after receiving the phone, see also the guidebook provided with the phone.

[Important notes] ※Return your broken phone within 14 days after delivery. If you do not return the phone, you will be charged 44,000 yen as a penalty. ※The fee and penalty are different for folded phones. ★1: Excludes certain regions and remote islands. ★2: For 23 Tokyo wards and Osaka City. Usage charge of 3,300 yen will apply per request. The service is subject to some conditions such as acceptance hours.

Save more money by also subscribing to

Usage support

Our advisors will carefully tell you how to use your smartphone, apps, and peripheral equipment!

Monthly usage fee: **¥649**

If you subscribe to the service together with Repair and Delivery Service with Cloud, you get

¥330/month off!

Example of service content

Remote Support Service

Stress-free support offered on the phone with the operator remotely operating your screen

Support for peripheral equipment

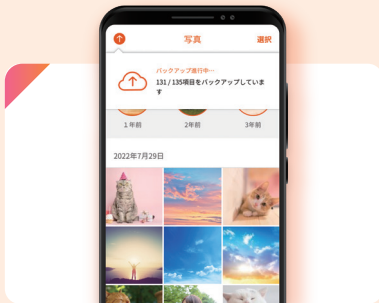

The operator will show you how to use not just peripheral equipment such as Wi-Fi and a PC, but also apps by other companies such as LINE!

[Important notes about usage support] ※Excludes corporate contract customers and customers subscribed to au Smart Support. ※The operator will only provide guidance within the scope of the manual specified by KDDI, and of the operations and settings announced by providers and manufacturers. ※If you cancel or temporarily suspend your au/UQ mobile contract or change your plan to a povo2.0 plan, the "Usage Support" will be automatically canceled.

Repair and Delivery Service with Cloud members-only service

Photo Cloud

Important photos and videos can be backed up on a large 512 GB cloud.
A designated app offers full features such as for processing and optimizing backed-up data*3.

Large Cloud

Photos and videos are automatically stored in the cloud

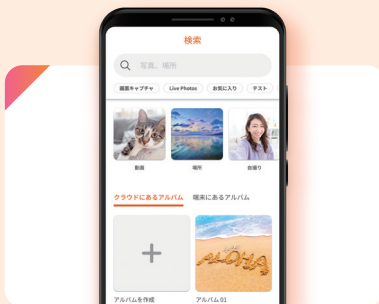

Easily edit photo

Various edit functions, such as trimming, filtering, and tone correction, are provided

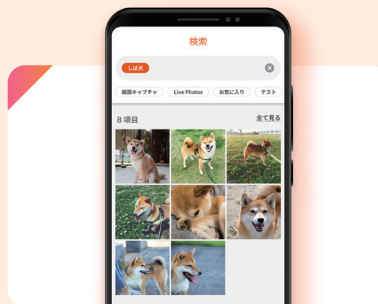

Optimizes the free space on your device

AI helps you delete unnecessary photos, such as camera shake blurring photos and similar photos

Supports your organization of photo and movies

Photos and videos are automatically organized in each category, such as location, selfie, and movie, or can be freely divided into folders as you choose

Easily find photos and videos

Photos and videos can easily be searched by tags based on album name and location
