

## Important Information on Canceling Your UQ mobile Contract

Upon completing the Mobile Number Portability (MNP) procedures, your contract with UQ mobile will be canceled and you will start a new contract with the carrier you switched to.

Therefore, we ask that you read and agree to the terms below before proceeding with the MNP procedures.

Switching from UQ mobile to au or povo2.0 with the same phone number is called a “number transfer”※. In this case, replace the word “MNP” with “number transfer” when reading this document, in the instructions for the various procedures, and so on.

※ Switching between KDDI and Okinawa Cellular will be referred to as “MNP.”

<For MNP>

### ■ About MNP Reservation Number

- The MNP Reservation Number is valid for 15 days, including the day you made the reservation. Your contract with UQ mobile will not be automatically canceled even after the expiration date. Please be careful to manage this number yourself.

### ■ About MNP One Stop

- If you have completed your reservation for cancellation on “My UQ mobile” after starting to apply for MNP at the carrier you will be switching to, complete the application procedure within 5 days at the carrier.
- If you have stopped your application procedure at the carrier you will be switching to, you may need to cancel your reservation for cancellation on “My UQ mobile” to resume the procedure.

### ■ MNP Procedures

As the carrier you will be switching to will check with UQ mobile for the contract holder's name, please apply for MNP with the same name as you used to register for the applicable line. Your contract with UQ mobile will be automatically canceled when the processing by your new carrier has been completed. However, the MNP process may be declined if there are overdue payments for UQ mobile.

### ■ The date your cancellation comes into effect

The date your contract is cancelled is the day your new contract with the carrier you switched to starts, not the day your MNP Reservation Number is issued.

<How Service Fees are Calculated for the Month of Cancellation>

■ For 4G plans

For UQ mobile plans subscribed to by September 1, 2021 (“Chat Plan,” “Adjust Plan,” “High-Speed Data + Call Plan,” “Unlimited Data + Call Plan,” “Smartphone Plan,” and “Carryover Plan” (hereafter collectively called “4G plans”), the basic monthly usage fees will be prorated on a daily basis.

■ For 5G plans

Basic monthly usage fees will fully apply (including procedures (MNP) involving a change of carrier between KDDI and Okinawa Cellular.) For number transfers, the basic monthly UQ mobile usage fees in the month of the transfer will be prorated on a daily basis, but for the time being, the monthly usage fees will be fully billed, deducting the extra amount from the usage fees of the brand you switched to after the month following the month you applied for the number transfer.

<Ending of discounts>

■ For 4G plans

For 4G plans, the “Monthly Discount,” “Special Smartphone Discount,” “Long-Term Discount,” “Renewal Discount,” “Giga MAX Monthly Discount,” and “Family Discount” will be ended with the usage in the month before the month of cancellation.

■ For 5G plans

For 5G plans, the “Home Set Discount” and “Family Set Discount” will be ended with the usage in the month of cancellation. If the basic UQ mobile monthly fees are prorated on a daily basis, these discounts will also be prorated on a daily basis.

■ Unlocking Your Mobile Phone’s SIM After Cancellation

If you are “unlocking your mobile phone’s SIM” after canceling or temporarily suspending UQ mobile services, you can do this by visiting My UQ mobile Website or an au shop/au Style, au SQUARE.

To go through this process at an au store, you need to pay a SIM unlocking processing fee of 3,300 yen (including tax) and bring the mobile phone whose SIM is to be unlocked and identification documents (applications for up to two devices per day per person are accepted).

A SIM unlocking process is not necessary for UQ mobile mobile phones that were newly released on Friday, October 1, 2021, or later, as their SIMs are not locked.

※After Saturday, October 1, 2022, all mobile phones are sold as their SIM-unlocked, so there is no need for SIM unlocking procedures.

#### <About SIM Unlocking>

In order to insert a SIM card from another carrier to use it on a UQ mobile mobile phone or another phone that supports SIM unlocking, you need to start the SIM Unlocking procedure.

#### <Conditions for SIM Unlocking>

The UQ mobile mobile phone or other models of phone needs to fulfill all of the following conditions. Even if you fulfill all of the following conditions, if your phone is damaged, the procedures will not start until after the repair has been completed.

- (1) Model released after May 2015 that supports SIM unlocking.
- (2) UQ mobile mobile phones without any network-use regulations.
- (3) Any new UQ mobile device purchased no more than 101 days before.

※The day you purchased your device will be counted as “Day 1.” The model you purchased will be included in your purchase history on the day following your purchase date.

However, the SIM unlocking procedures can be performed even within 100 days from the model purchase in one of the following cases. Please be aware that to unlock the SIM at an au store, the subscriber applying for the procedure needs to visit the store.

- ① If you have no balance of installments (including a lump-payment purchase or you have paid the balance of payments in full)
- ② If the applicable UQ mobile line currently being used for the mobile phone for which SIM unlocking is required has a history of SIM unlocking and 100 days have passed from the application of the previous SIM unlocking※  
※Applicable to SIM unlocking applied on or after July 11, 2017.
- ③ Your payment method is a credit card payment for the installment payments for the phone that the SIM unlocking is required for and for the usage fees of the associated UQ mobile line

#### <Installment Payments Contract>

If you have selected to continue with installment payments, the installment payments will continue to apply.

<Other Important Notes Regarding Your Contract Services>

- Only your mobile phone number will be carried over through the MNP and number transfer process.
  - ※ Some services will continue to be provided through separate procedures, such as au ID.
- You will need to back-up all data on your own, including contacts, pictures, messages received and sent, apps, data in apps and configuration information.
- Various benefits associated with your UQ mobile contract, including those provided by other companies, will be terminated.
- Data volume purchased through Data Charge will become unavailable.
- In addition to the discounts and benefits indicated in this document, other discounts and benefits provided as part of a UQ mobile line subscription may also be terminated by canceling the contract.
- If you are applying for MNP, you will need to choose whether to continue with or cancel any of your device warranty services (“Repair and Delivery Service,” “Repair and Delivery Service with Cloud,” “Repair and Delivery Service with AppleCare Services,” “Repair and Delivery Service with AppleCare Services & iCloud Storage,” and “Repair and Delivery Service with AppleCare Services & iCloud+.”)

If you choose to cancel, the service will be terminated at the end of the month you applied for the cancellation. Prorated monthly charges for the “Repair and Delivery Service” will be prorated on a daily basis.

If you choose to continue a service, the monthly service fees will continue to apply.

If you apply for a number transfer, the device warranty service will continue and the monthly service fees will continue to apply.

(If you are subscribed to UQ mobile Device Repair Service, the service will be switched to “Repair and Delivery Service” and be continued)

To cancel the Device Repair Service, the subscriber needs to complete the procedures at a store, including the Customer Support Center. “Bring-In Repair Support” will be automatically canceled with the MNP procedure.

- The contents you are subscribed to may not be cancelled when you cancel your line subscription. If you wish to cancel the contents, please apply directly to each content provider.

- If your paid content membership fees are bundled with your UQ mobile payments, please switch your content payments to another payment system, such as a credit card, by the end of the month. Please note that if you do not complete this process, your contents and status may be reset (canceled) or automatically canceled.
- au HOME will be automatically cancelled and no longer accessible. If you have a Recommended Set Plan (installment payments) contract, a cancellation fee will be applied in accordance with your payment period. If you wish to continue with au HOME, you will need to reapply. If you are subscribed to Anshin Watcher, your Anshin Watcher device will no longer be accessible after cancelling. However, as long as you apply for au HOME with the same au ID by the end of the month following the month in which you cancel and register your device, you can use the device again. Otherwise, your device cannot be used again. In that case, purchase a new device to use Anshin Watcher.
- If you are using a sub-line service, the service will also be terminated following the cancellation of your contract with UQ mobile. Since sub-line service lines will be stopped in order, if you make a call or use SMS before the line has been stopped, a charge for the use of such a service will apply. A charge for the use of a sub-line service will be billed one month after the date of use of the UQ mobile service. Please be aware that you will receive a bill two months after the month of cancellation or later.
