# Speed Wi-Fi 5G X11

#### **Precautions**

Do not wrap cables around the main unit while connected to the AC adapter (sold separately) or the USB cable (sold separately).

Excessive force continuously applied to the plug might cause failures.

Refrain from wrapping the cable around the unit, remove it instead.

### **About Using this Product**

- Before using the product, read the "Safety Precautions (Observe Strictly)" in "Notes on usage" (this manual) to ensure
- Before assuming the product is malfunctioning, check the symptoms in "Troubleshooting" in the "Setup Guide".
- Also, see the "故障とお考え[こなる前に (Troubleshooting)" in the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese) on the WiMAX Support Information website.
- https://www.necplatforms.co.jp/support/wimax/x11/index.html (in Japanese only)
- "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese) can be downloaded from the au website https://www.au.com/support/service/mobile/guide/manual/ (in Japanese only) When you communicate using this product, keep it at least 1.5 cm away from your body, with no intervening
- Communication is not possible even in the service area in places where the signal does not reach (e.g. tunnels and basements). Also, communication is sometimes not possible in poor reception areas. Communication is so interrupted if you move into a poor reception area during communications.
- Since this product uses radio waves, the possibility of communication interception by third parties cannot be eliminated. (The 5G, LTE, and WiMAX 2+ systems, however, offer secure communication encryption and secrecy functions.)
   If you subscribe to the WiMAX operator other than au, this Product is designed for use in Japan only and cannot be
- For au contracts, the product is an au World Service supported model, but the various network services described in the "Instruction Manual" differ depending on the region and service content.
   Since this product is a radio station under the Radio Law, you may be asked to temporarily submit the product for
- inspection in accordance with the Radio Law.
- The IMEI information in the product that you are using is automatically transmitted to your telecommunications carrier for "product maintenance" and for "understanding usage conditions".
   If using an au contracted device overseas, confirm the regulations and other conditions for each country/region.
- The Company is not liable for any damages arising from earthquakes, lightning, storms, floods or other natural disasters, as well as fires, actions by third parties, other accidents, intentional or mistaken operation by the customer, or use under other unusual conditions outside the responsibility of the Company.
   The Company is not liable for any incidental damages (change/disappearance of recorded content, loss of business income, disruption of business, etc.) arising from the use of or inability to use the product.
- The Company is not liable for any damages arising from failure to observe the recorded content of the "Instruction
- The Company is not liable for any damages arising, for example, from malfunction caused by combination with connected devices or software not related to the Company.
   The settings and other stored data may sometimes be altered or lost due to faults, repair or other handling of the
- product. The Company is not liable for any damage or lost income resulting from the loss of data.

- It is recommended you keep a copy of important data on your PC's hard disk, etc. Whatever the cause of the defect or malfunction may be, the Company assumes no responsibility for alteration or loss of saved data.

  Contents saved in this product might be altered or lost due to accidents, faults, repair, or mishandling. Be sure to keep a copy of important contents. Note that The Company assumes no responsibility for any damages or lost profits resulting from altered or lost contents.
- This product uses liquid crystal for its display The display response speed may become slow when the ambient temperature is low, which is due to the property of liquid crystal and not a malfunction. The display response speed will return to normal at room temperature.
- Although the display used on the product is made using high-precision technology, some pixels (dots) might be lit or out at all times. This is not a malfunction.
- Do not discard the product together with regular trash. Please cooperate in the collection of unneeded products (optional products included) to protect the environment and effectively use resources. The products are collected at au shops/au Style, and other places.

- au shops/au style, and other piaces.

  The term "the Company", as used in this manual, indicates the telecommunications carrier to whom you are contracted and the manufacturer (NEC Platforms, Ltd.).

  Unauthorized reproduction of the "Instruction Manual" in whole or in part is prohibited.

  The contents of the "Instruction Manual" are subject to change without notice.

  Some functions may become unusable due to changes to the OS specifications or if services are changed or ended.

  While every effort has been made regarding the contents of the "Instruction Manual", please contact the telecommunications carrier to whom you are contracted if you have questions or notice omissions.

# Safety Precautions (Observe Strictly)

- Before using this product, thoroughly read these safety precautions for proper use. ■ The safety precautions shown here contain information to prevent damage to
- property and/or injury to the user or other people and must be observed. ■ The symbols in the following categories indicate the level of damage or injury that may occur due to incorrect usage or if the information provided is not observed.

<b>!</b> DANGER	This symbol indicates the potential and imminent danger of death or serious injury (*1) to a person from improper use.
<b>!</b> WARNING	This symbol indicates the possibility of death or serious injury (*1) to a person from improper use.
<b>!</b> CAUTION	This symbol indicates the possibility of minor injury (*2) to a person or physical damage (*3) to a person from improper use.

- Serious injury:This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones,
- \*2 Minor injury: This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.
- \*3 Physical damage: This refers to extended damage to buildings, furniture, livestock, or pets, etc.

nent or long-term hospital attendance as an outpatient.

# Explanation of icons used in this manual that indicate prohibitions and restrictions

	Prohibited	allowed.	Wet hands prohibited	wet hands is not allowed.
	Disassembly prohibited	Indicates that disassembly is not allowed.	Instruction	Indicates restrictions on actions according to instructions (actions that must be done).
	Wetting with water prohibited	Indicates that use in a place where the product is likely to get wet or allowing the product to get wet is not allowed.	Remove the power	Indicates that the power plug must be removed from the power outlet.

• In this manual, the "au Nano IC Card 04 LE" (for au contracts) and the "au Nano IC Card 04 LE U" (for contracts with WiMAX

Precautions common to the main unit, internal battery, charging equipment, SIM card, and related accessories

### /!\ DANGER

- Do not use, store, or leave the product in locations subject to high temperatures or accumulation of heat (e.g. by the fire, near a heater, under a heated kotatsu or bedding, in direct sunlight, or in a car in the hot sun).
- Doing so might cause fire, burns, injury or electric shock.
- Do not put the product in or near microwave ovens, cooking appliances, such as IH cooking heaters, or high pressure containers, such as pressure cookers. Doing so might cause fire, burns, injury or electric shock
- Do not splash sand, soil or mud on the product, or do not directly place the product on them. Also, do not touch the product with hands with sand etc. adhered
- Doing so might cause fire, burns, injury or electric shock. • Do not charge the battery when the product gets wet with liquids such as water (drinking vater, sweat, seawater, urine of pet animals, etc.). Also, do not charge the battery in locations
- exposed to water, such as a bathroom.
- Doing so might cause fire, burns, injury or electric shock. ● Do not bend or break the product and do not subject it to extreme pressure. Be particularly Do not bend or break the product and do not subject it to extreme pressure. Be particularly careful to not bump it or crush it between things when carrying it in a pocket of your clothes.
- Doing so might cause fire, burns, or injury if the internal battery is damaged
- Use care in the following situations: • Sitting or squatting while the product is in a pocket of your pants or skirt
- Crushing the product in a door or a car door while it is in a pocket of your jacket
   Stepping on the product while it is on the floor or on something soft, such as a sofa, bed, or
- Sliding the product between the seats on a train or bus
- Do not disassemble or modify the product.
- Doing so might cause fire, burns, injury or electric shock. Do not try to remove the product's internal battery.
- oing so might cause fire, burns or injury.
- The product's rear cover cannot be removed. Do not try to remove it. ng so might cause fire, burns or injury
- Do not let the product get wet with liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.). Doing so might cause fire, burns, injury or electric shock
- Do not allow liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.) to get inside the connection terminal.
- Doing so might cause fire, burns, injury or electric shock.
- Use only optional accessories specified by the Company. Using accessories that are not specified might cause fire, burns, injury or electric shock.

# **⚠** WARNING

- Do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.
- might cause fire, burns, injury or electric shock.
- Do not allow conductive materials (such as metal objects and pencil lead) to get into the connection terminal, or dust to get inside it.
- Doing so might cause fire, burns, injury or electric shock. If a foreign object accidentally gets into the product, turn off the power to the product and contact the telec vou are subscribed.
- Do not cover or wrap the product with a cloth or bedding while using or charging it.
- If charging does not finish after the specified time, stop charging. illure to do so might cause fire, burns, injury etc. due to overcharging etc
- Turn off the product before entering a place where flammable gas may be present, or a
- place where dust is generated. Stop charging the battery if you are doing so. The flammable gas, etc. could ignite and cause an explosion, fire, etc
- Regarding use in a gas station, etc., follow the instructions of those specific facilities. o not charge the product in a gas station, etc
- Also, if the product is used in a gas station, etc., be careful to not drop it, do not use it while refueling
- The flammable gas, etc. could ignite and cause an explosion, fire, etc. • If you notice anything unusual about the product, such as an unusual odor, abnormal noise, smoke generation, overheating, discoloration or deformation during operation, charging or
- storage, perform the following measures with care and caution.
- Remove the charging equipment's (sold separately) plug from the power outlet • Turn the product off
- Failure to do instructions above might cause fire, burns, injury, or electric shock. Please contact the telecommunications carrier to whom you are subscribed.

# **!** CAUTION

- Do not use the product while it is damaged.
- Doing so might cause fire, burns or injury
- Do not place the product on an unstable or inclined platform.
- Doing so might cause the product to fall etc. and cause inj Do not use or keep the product in a place that is very humid, dusty, or subject to high
- ng so might cause fire, burns, or electric shock
- If children use the product, parents or guardians should give them proper instructions and do not allow them to use the product in the wrong way.
- ailure to do so might result in accidental ingestion, injury, or electric shock. Keep the product out of the reach of babies and infants.
- ailure to do so might result in accidental ingestion, injury, or electric shock. ■ Be careful, the product may become very warm when it is used continuously or being charged. Also, be careful that the product is not unintentionally in contact with your body for
- extended periods, such as if you put it in a garment pocket or fall asleep. The product, internal battery, and charging equipment (sold separately) might become warm when used continuously, such as to transmit data, or while charging, If you are directly in contact with a armed part for a long time, it might cause a redness of skin, itch, rash, low-temperature burn etc. depending on your physical condition.

### Main unit

# **!** DANGER

- Do not heat the product or throw it into a fire. oing so might cause fire, burns or injury, if it ignites
- Do not apply excessive force, such as sticking a sharp object (a nail, etc.) into the product, hitting it with a hard object (a hammer, etc.), or stepping on it.
- Doing so might cause fire, burns or injury. • If the substances inside the product get into your eyes or mouth, promptly rinse them with clean water and then immediately consult a doctor.
- Failure to do so might cause blindness, medical problems, etc. due to the effects of the substances

# **!** WARNING

- Do not allow liquids such as water (drinking water, sweat, seawater, urine of pet animals, etc.), metal pieces, burnable items, and other foreign objects to get inside the product's USB port or the SIM card slot inside the product. Also, do not insert the SIM card into the wro slot, or insert it in the wrong orientation.
- Doing so might cause fire, burns, injury or electric shock. If a foreign object accidentally gets into the product, turn off the power to the product and contact the telecommunications carrier to whom vou are subscribed.
- Turn the product off before boarding an airplane.

- Use of mobile devices on an airplane is restricted. Follow the instructions of the airline. The radio waves may adversely affect electronic equipment on the aircraft. Prohibited acts related to mobile device usage on an airplane might be punished by law
- Follow the instructions of medical institutions regarding the use of mobile devices on their
- urn the product off in places where its use is prohibited.
- The radio waves may adversely affect electronic devices or electronic medical equipment. • If you are wearing any electronic medical equipment, contact the manufacturer or retailer of the electronic medical equipment for information about the possible effects of radio waves. e radio waves from the product might have harmful effects on electronic medical equ
- Turn off the power to the product near electronic devices or equipment using high precision controls or weak signals.
- The radio waves may adversely affect the operation of electronic devices. \*The following are some electronic devices or equipment that you should be careful of: Hearing aids, implantable cardiac pacemakers, implantable cardioverter defibrillators, other electronic medical equipment, and other automatically controlled devices or equipment. If you use an implantable cardiac pacemaker, implantable cardioverter defibrillator, or other electronic medical equipment, check with the electronic medical equipment manufacturer or retailer whether the operation can be affected
- Be careful about broken parts or exposed internal parts of the product if the display is
- Touching damaged or exposed parts might cause burns, injury, or electric shock. Immediately stop use and move the product away from the fire if you notice liquid leaking
- from the internal battery or unusual odors.
- The liquid that leaks out might ignite and cause a fire or rupture. Be careful not to let the product be bitten by your pet.

by radio waves.

 $Fire, burns, or injury\ might\ occur\ if\ the\ internal\ battery\ ignites, ruptures, overheats, or\ leaks\ fluid.$ 

# **CAUTION**

• If the display is damaged and the internal substance leaks out, do not get it on your skin, such as your face, hands, or clothes, etc.

- Doing so might cause injury to your eyes or skin
- If the internal substance gets into your eyes or mouth, etc., or contacts your skin or clothes, immediately rinse the affected area with clean running water
- If the substance gets into your eyes or mouth, etc., rinse the affected area and immediately consult ● Do not discard the product together with regular trash.
- **Do not discard the product together with regular trash.**Doing so might cause fire, burns or injury. Also, it might cause environmental destruction. When you no longer need the product, recycle it at an au shop, au Style, or other place, or recycle it according the instructions of your local governmen
- If the internal substance of the internal battery leaks out, do not get it on your skin, such as your face or hands, or clothes etc.
- Doing so might cause injury to your eyes or skin. If the internal substance gets into your eyes or mouth, or contacts your skin or clothes, immediately rinse the affected area with clean running water.
- If the substance gets into your eyes or mouth, etc., rinse the affected area and immediately consult ● To use the product in a car, check with the automobile manufacturer or dealer before using
- it to determine how the car's equipment is affected by radio waves. The radio waves from the product may have an adverse effect on electronic equipment in some
- rehicle models. In that case, stop using the product immediately If skin problems develop from using the product, immediately stop using it and consult a
- Itching, rashes, eczema, or other symptoms could occur depending on the user's physical condition For an explanation of the materials used for various parts of the product, see "List of materials" on
- Watch the display in an adequately bright place taking a certain distance from it. Watching it in a dark place or closely might reduce visual acuity etc

# ■ Charging equipment

# **!** WARNING

- Do not use the specified charging equipment (sold separately) or the USB cable (commercially available) if their cables become damaged.
- Doing so might cause fire, burns, or electric shock ● If you hear thunder, do not touch the charging equipment (sold separately) or USB cable (commercially available). Doing so might cause an electric shock.
- Do not short-circuit the connection terminal while it is connected to a power outlet. Do not touch the connection terminal with your hands, fingers, or any part of your body. Doing so might cause fire, burns, or electric shock. ● Do not place heavy objects on the cables of the specified charging equipment (sold
- separately) or USB cable (commercially available), and do not apply excessive force to the cables, such as by pulling them. Doing so might cause fire, burns, or electric shock.
- outlet, do not contact metal straps or other metal objects with the charging equipment. Doing so might cause fire, burns, or electric shock. • Do not use a voltage converter (such as converters used for overseas travel) with

● When you insert or remove the charging equipment (sold separately) to or from a power

- oing so might cause fire, overheating, or electric shock. Do not apply excessive force to the connection part with the specified charging equipment (sold separately) connected to the product.
- Doing so might cause fire, burns, injury or electric shock. Do not touch the cable of the charging equipment (sold separately) or USB cable (commercially available), the connection terminal, the power plugs, or the cradle (sold separately) with wet hands.
- oing so might cause fire, burns, or electric shock

the charging equipment (sold separately).

- Use the specified power supply and voltage.
   Also, use charging equipment (commercially available) that can be used overseas to charge
- Using the wrong power supply or voltage might cause fire, burns, or electric shock Charging equipment (sold separately): 100 VAC (connect only to a household AC power outlet) Charging equipment (commercially available) that can be used overseas: 100 - 240 VAC (connect only to a household AC power outlet)
- Wipe off dust on the power plug. Using it while it is dusty might cause fire, burns, or electric shock.

- When you connect the charging equipment (sold separately) to a power outlet, insert it
- nsecure inserting might cause fire, burns, or electric shock.

not use them with the deformation restored.

# **Handling Precautions**

These precautions are provided to prevent a fault and ensure that performance can be fully demonstrated. Thoroughly read these precautions to ensure correct use.

- Precautions common to the main unit, internal battery, charging equipment, SIM card, and related accessories
- Do not apply excessive force to the product during use. Be sure not to put the product into a tightly packed bag or place a heavy object on the product in a bag. Sitting on the product in your pocket might damage the display or nternal circuit board resulting in a malfunction.
- Keeping an external device connected to the external connection terminal might damage the connector resulting in a malfunction. Such damage and malfunction are not covered by the warranty, even if there is no external damage
- Do not use the product in extremely hot, cold or humid places.
- (Use within an ambient temperature range of 5°C to 35°C and humidity range of 35% to 85%.)

  Do not use in places subject to lots of dust or vibration. Doing so might cause a malfunction.
- Clean the connection terminal with dry cotton swabs, etc. every now and then. Soiled terminals might cause poor connection. Do not apply strong force when cleaning the connection terminal to prevent deformation Clean the product with a soft dry cloth (such as the type used for eveglasses). Forceful rubbing with a dry cloth may
- scratch the display. The display may be stained if splashes or smears are left on the surface. Wiping the display with alcohol, thinner, benzene, detergent, etc., may also erase the printing on the outer casing or cause failures. • Wiping the display with disinfectant, antibacterial sheets, etc., may also erase the printing on the outer casing or cause
- The product may become warm during data transmission or charging etc. depending on the situation, but this is not
- $\blacksquare \ \, \text{If the product becomes warm when using it, the power might turn off automatically because of a protection feature. In } \,$ that case, turn on the power to connect again after a while. • Do not place near corrosive chemicals or in places where corrosive gas is generated. Doing so might cause
- Do not use outside when you can hear thunder. Doing so might risk lightning strikes and electric shock.
- Be sure to use only specified peripheral devices. Use of other peripheral devices might cause a malfunction.

Use as far away as possible from landline phones, TVs and radios. Use nearby might affect them.

- Do not put the product in a cooking apparatus, such as a microwave oven or a pressure vessel. Doing so might cause a
- The customer is not allowed to disassemble, modify or repair the product. Doing so might cause a malfunction Modification of the product is in violation of the Radio Law and Telecommunications Business Act.
- Do not allow a part of your body such as fingers or conductive foreign objects (metal fragments, pencil leads, etc.) to come into contact with or get inside of the connection terminal to avoid short-circuit. Doing so might cause a malfunction. If a foreign object accidentally gets into the product, please contact the telecomr whom you are subscribed.
- Do not splash liquid such as water on the product. Also, never use in humid places such as bath areas, or use with wet hands. Doing so might cause a malfunction due to short-circuit or corrosion of electronic circuits
- Malfunctions caused by wetting with water or humidity are not covered by the warranty and charges will be incurred for repairs. Please contact the telecommunications carrier to whom you are subscribed
- In the event that the product gets wet while charging, immediately remove the power plug of the charging equipm
- Do not operate the product while driving a car or motorbike, riding a bicycle, or walking. Operation of a mobile device while driving a car or motorbike is prohibited by law. Operation of a mobile device while riding a bicycle might be punishable by some regulations.
- lacktriangle Using or charging the product in a bag or while it is covered with bedding might cause a malfunction
- When using the charging equipment (sold separately) or an external device, insert/remove the connector straight to/from the terminal. Make sure of the orientation of the connector is correct. Unless it's correct, it might cause a
- Do not store the product in places subject to direct sunlight (e.g. in a car), places that get hot, places that get extremely cold, and in humid or dusty places. Doing so might cause a malfunction.
- Do not place the product on an unstable or inclined platform. Be especially careful while the product is charging. Dropping the product might cause a malfunction
- Do not exceed the rating of a power outlet or wiring device when charging the product, for example, by starburst

(sold separately).

- The product's battery is internal and cannot be replaced by the custome
- Do not forcefully press, hit or intentionally subject the display to strong impact. Doing so might cause scratching or
- Do not forcefully press your fingernails, sharp objects or hard objects against the button or display surface. Doing so might cause scratching or damage
- Never use this product when it has been modified. Use of a modified device violates the Radio Law and
- The product obtains a technical standards conformity certification of specified wireless equipment based on the Radio Law and a technical standards conformity approval based on the Telecommunications Business Act, and as a proof, you can check the "Technical Conformity Mark @" with the product's display.
- << How to confirm>> From the home screen "Information" "Device Information" "Certification info "Certification information"
- If the screws of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components, the certification of the product are removed and modifications are made to the internal components.conformity with technical regulations will become invalid. Never use the product without the valid certification. Doing so violates the Radio Law and Telecommunications Business Act.
- Take care not to place magnetized items such as magnetic cards, speakers and TV sets near the product, as it might cause malfunction. Putting a strong magnetic field close to the product might cause false operation.
- Do not place magnetic cards, such as cash cards, credit cards, and prepaid cards near the product. Doing so might erase
- When you put the product in your pocket or bag, take care so that the display does not come in contact with metal objects or other hard objects. Doing so might cause scratching or damage.
- When suddenly brought into a warm place from a cold place, or when in a humid location, or when used where remperature suddenly changes (e.g. near the air discharge port of an air conditioner), water droplets (i.e. condensation) sometimes are formed inside the product. Note that when used under conditions such as this, the humidity might cause corrosion or a fault.
- Note that applying excessive force to the USB connector while connected to an external device may cause damage
- Always close the SIM cover, etc., before use. Not closing covers before use might allow dust or water, etc., to get inside and cause a fault. If a dust or water, etc. accidentally gets into the product, turn off the power to the product and contact the telecommunications carrier to whom you are subscribed.
- Do not allow liquids, metal objects, or other foreign objects to get inside the SIM card slot in the product. Doing so might cause a malfunction. If a foreign object accidentally gets into the product, turn off the power to the product and contact the telecommunications carrier to whom you are subscribed.
- Do not subject the product to strong impact, such as by dropping it, throwing it, or stepping on it. Doing so might cause a malfunction.
- Do not place the product directly on a sandy beach, etc. Sand etc. might get inside the product causing a malfunction. If a foreign object accidentally gets into the product, turn off the power to the product and contact the telecommunications carrier to whom you are subscribed.

#### Display

- If the display shows the same image for long periods; is set brighter than is needed; or is used for extremely long periods, then its colors may change or its brightness may partially deteriorate. These are properties of the display, not malfunctions.
- Because the display is made using high-precision technology, only very small pixels might stay lit or out at all times. Also, depending on the angle of view, changes in color or stripes of varied colors or brightness may be appear. These are due to the structure of the display, and are not malfunctions. Your understanding is appreciated.
- Exposing the display to direct sunlight might cause a malfunction. Be careful when placing it near windows or outside

#### ■ Internal battery

(The product's internal battery is a lithium-ion battery.)

The internal battery is not fully charged at the time of purchase. Charge the battery before using the product. Also, if you have not used the product for a long time, then charge it.

- Leaving the product in very hot or cold environments, such as in a closed car (vehicle) in summer, will lower the capacity of the internal battery and shorten the available usage time. This will also shorten the internal battery's service life. Try to use the product, as much as possible, at room temperature.
- After charging, the internal battery gradually discharges even if the product is not used. If the product is not used for a long period, the internal battery may discharge, so we recommend charging it before use. • The internal battery is a consumable part. If performance does not recover, such as usable time being extremely short
- even after charging, then the internal battery is at the end of its service life. Note that the length of service life varies depending on the usage conditions, etc.
- The internal battery might swell up, depending on usage conditions, as it approaches the end of its service life. This is due to the properties of lithium-ion batteries, and is not a problem in terms of safety.

# ■ Charging equipment

- Do not wrap the cable of the specified charging equipment (sold separately) around the AC adapter itself. Do not forcibly bend the connection part of the charging equipment (sold separately) and power plug. Do not place heavy objects on the cable of the AC adapter or the USB cable (commercially available), and do not apply excessive force to the cables, such as by pulling them. Doing so might cause a malfunction.
- Hold the power plug of the specified charging equipment (sold separately) when removing it from an outlet. If you pull the cable, the cable might be damaged.

# ■ SIM card

- Do not apply excessive force when removing or inserting the SIM card. Be careful not to apply excessive force when inserting the card into the product you are using.
- You are responsible for any damage caused by inserting your SIM card into some other IC card reader/writer, etc. Do not put stickers, etc. on the SIM card.
- Do not insert a SIM card that is in a conversion adapter. Doing so might cause a fault.
- Do not do anything that might damage the SIM card (such as using it in a hot place, dropping it into fire, contact of its
- metal parts with foreign objects, subjecting it to impact, bending, loads, or liquids, etc.). Doing so might cause loss of data or a malfunction

#### Copyrights and rights of portrait

You are not allowed, without the copyright holder's permission, to copy, distribute, publish, or modify the whole or parts of data acquired using this product, such as by internet download, when that data is protected by third-party copyright, except for copying or quoting for personal use as recognized by copyright law. In addition, do not use or ify portraits or names of other individuals without their consent, as it might infringe on rights of portrait

Please back up important content recorded or downloaded on the product to an outside source. Content recorded to memory on the product sometimes disappears or is altered by unexpected factors, such as static electricity or a fault, repair, mishandling, etc.

### Notes on Using Wireless LAN (Wi-Fi®)/Bluetooth® Functions

- The wireless LAN (Wi-Fi®) function and Bluetooth® function of this product conform to FCC regulations and domestic wireless standards in Japan, and have been certified.
- The wireless LAN (Wi-Fi®) function and Bluetooth® function may be restricted in some countries and regions. If using
- the product overseas, confirm the regulations and other conditions for each country/region. (for au contracts) The 2.4GHz band used by wireless LAN (Wi-Fi®) and Bluetooth® devices is shared by various other devices. For this reason, the communication speed and connectable range may be decreased, or disconnection may occur, due to interference from other devices.
- Do not use this product in places where electromagnetic waves are generated or near electric products, AV and OA equipment, or other magnetized devices.
- Subjecting this product to magnetic or electrical noise might increase noise and prevent it from performing communications. (This product is particularly susceptible to noise when it is used near a microwave oven.)
- Using this product near a TV, radio or similar appliance might cause reception interference and disrupt TV images. Searching might not be successful if there are multiple wireless LAN (Wi-Fi®) access points near the product or if the
- Use of this product on board an airplane is restricted. Follow the instructions of the airline.
- nunication speed and connectable range vary depending on the distance between communication

#### **2.4GHz** band precautions

devices, obstacles and the devices used.

Wireless LAN (Wi-Fi\*) and Bluetooth\* functions of this product use the 2.4GHz band. In this frequency band, other similar wireless stations, in-plant wireless stations for mobile unit identification that require a license to use, such as factory production lines, specific small power wireless stations that do not require licenses, amateur wireless stations (collectively called "other wireless stations" from here on) are operated in addition to home electrical appliances such s microwave ovens, devices for industrial, scientific and medical devices.

- Before using this product, make sure that "other wireless stations" are not in operation nearby.
- In the event that instances of radio wave interference have occurred between this product and "other wireless stations", immediately either relocate this product or stop operation of the device (stop the emission of radio
- If you are unclear on any points or are troubled by anything, contact the telecommunications carrier to whom you
- Connections with all wireless LAN (Wi-Fi®) or Bluetooth® devices have not been confirmed. Therefore, connections with all wireless LAN (Wi-Fi®) and Bluetooth® devices are not guaranteed
- Therefore, connections with all wireless LAN (Wi-Fi®) and Bluetooth® devices are not guaranteed.

  Although the product's security functions serve as a measure of security during wireless communicating conform to the standard specifications for wireless LAN (Wi-Fi®), they may not offer enough security, depending on the usage environment and settings. Be careful when doing data transmission using wireless LAN (Wi-Fi®).

  Wireless LAN (Wi-Fi®) has the advantage that it can be freely connected anywhere within the radio wave range, as it uses radio waves for exchanging information. At the same time, there is a risk that a malicious third party may obtain unauthorized access if security settings have not been configured. You are recommended to configure security settings before using wireless LAN at your discretion and responsibility.

  The Company assumes no responsibility for leakage of data or information that may occur during wireless LAN (Wi-Fi®) communication.
- (Wi-Fi®) com
- Since wireless LAN (Wi-Fi®) and Bluetooth® functions use the same frequency band, using both functions at the Since wireless LAN (Wi-Fi\*) and bluetooth\* functions use the same frequency band, using both functions at the same time may cause radio wave interference resulting in decreased communication speed or disconnection fr the network. If connection fails, stop using either the wireless LAN (Wi-Fi\*) or Bluetooth\* function. Vireless LAN (Wi-Fi\*) and Bluetooth\* functions of this product use the 2.4GHz band.

  Wireless LAN (Wi-Fi\*) function: 2.4DS4/OF4 This product uses the 2.4GHz band. DS-SS and OFDM are used as the
- modulation schemes. The interference distance is about 40 m or less.
- Bluetooth® function: 2.4FH4/XX8 This product uses the 2.4GHz band. It uses FH-SS modulation and other
- modulation schemes as its modulation schemes with an interference distance of within 40 m and 80 m, respectively. Channels that can be used vary according to country. (for au contracts)
- For use in an airplane, check with the airline company in advance.
- : Radio equipment that uses the 2.4 GHz band. 2.4DS4/OF4/FH4/XX8 DS4

CH6, or CH11 to mitigate interference and increase frequency use efficiency.

- : An interference distance of up to 40 m assumed for the DS-SS system. : An interference distance of up to 40 m assumed for the OFDM system. FH4
  - : An interference distance of up to 40 m assumed for the FH-SS system : Modulation scheme assumes an interference distance of within 80 m for
- XX8 other systems. : This means that the product uses all frequency bands and is incapable of
- avoiding the frequency band for mobile device identification equipment If you are using this product in the 2.4GHz band, you are recommended to set the channel setting to either CH1.
- This does not apply when you must use a setting other than the recommended CH1, CH6, or CH11 to avoid system nterference other than wireless LAN (Wi-Fi®). (Refer to "8-4 Wi-Fi 設定 (Wi-Fi Settings)" in "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese) for how to set

#### ■ 5GHz band precautions

Wireless LAN (Wi-Fi®) function of this product uses 5GHz band. Using the 5.2GHz band and 5.3GHz band outdoors is prohibited by the Radio Law. (Except when communicating with an access point/land mobile relay station in a 5.2 GHz band high-output data communications system.) The channels used on the product are as follows

IEEE802.11a/n/ac/ax J52 W52 W53 W56

IEEE802.11b/g/n/ax

W52 (5.2GHz band / 36, 40, 44, 48ch)

W56 (5.6GHz band / 100,104,108,112,116,120,124,128,132,136,140, 144ch)

\* W56 (5.6GHz band/132, 136, and 140 ch) cannot be used. (As of November, 2021)

The product electronically displays on-screen "Notice for using 5GHz band Wi-Fi". Display method: From the home screen - "Information" - "Device Information" - to display "Notice for using 5GHz

# **About Each Type of Verification Number and PIN Code**

### About the various verification numbers

Various verification numbers are used when using this product.
The verification numbers used are as follows. Because the various verification numbers that are set are needed for various operations, be careful not to forget them. Also, be sure to change the initial values to your own numbers before use.

Screen lock settings

When setting/releasing the screen lock Initial value:

#### ■ About the PIN code

- To prevent unauthorized use of the SIM card by a third party, you can set the product to require a PIN code entry every time the power is turned on. You also need to enter a PIN code when setting whether the PIN code entry is required
- If the PIN code is incorrectly entered three times consecutively, the PIN code will be locked. You can unlock the PIN code using a PIN lock cancellation code (PUK code). • The PIN code is "1234" and entry is set to "Disable" at the time of purchase. You can change the PIN code to any four
- to eight-digit number, and set entry to "Enable" as necessary If you set the PIN code to "Enable", be sure to change the PIN code to your own number before using the product.

- PIN lock cancellation code (PUK code)
- In case the PIN code is locked, you can unlock it by entering the PIN lock cancellation code (PUK code).
  - The PIN lock cancellation code (PUK code) is an eight-digit number preset at the time of purchase, which is printed on the back side of the plastic card on which your SIM card is attached.
  - After entering the PIN lock cancellation code (PUK code), you need to set a new PIN code.
  - If the PIN lock cancellation code (PUK code) is incorrectly entered ten times consecutively, contact the telecommunications carrier to whom you are subscribed.
  - The "PIN code" is not reset by initializing the product.

### **Data Communication Terminal Etiquette**

#### Use of the product is not allowed in the following places!

Use of this product on board an airplane is restricted. Follow the instru

#### ■ Consideration for the people around you is important

- While in public, use this product in places where you will not get in the way of traffic
- $\bullet \ \ \text{It is extremely dangerous to walk while looking at the product's screen. Refrain from operating the product while the product of th$ walking and after suddenly stopping.
- When on the Shinkansen, in a hotel lobby, etc., move to a place where you are not in the way of others
- · When in crowded places, such as a full train, there may be people with pacemakers around you. Turn off the power of the product in advance.
- Use of this product may or may not be prohibited in medical institutions, such as hospitals. Follow the instructions in places where bringing this product is prohibited.

#### After-sales Service

#### ■ To request repairs (for au contracts)

Contact the Repair and Delivery Support Center regarding repairs

Jnder warranty	Repairs done based on the Company's free repair regulations.				
Not under warranty	If renairs are possible the customer choose to have renairs done for a fee				

- \* The warranty period is one year from the date a customer purchases a new product.
- · Keep a backup of the content of the memory, because it may be lost during repairs. The Company bears no responsibility for any damages or lost profits resulting from altered or lost contents.
- Re-used parts that meet the Company's quality standards may be used to make repairs.
- The au device you have being using, which is returned through the replacement mobile phone delivery service, is reused as a replacement device after being repaired. Also, device parts replaced by the au After Service are collected and recycled by the Company. Because of this, they cannot be returned to the customer.
- If this product is manipulated, modified, or analyzed (including software modification, analysis (including rooting etc.), reverse engineering, reverse compiling, or reverse assembly) or repaired outside of the Company's officially authorized repair centers, then it may no longer be covered by warranty and repairs may be refused. The internal battery is a consumable part so it is not covered by warranty.
- · Accessories, which are separate from the product's main unit, are not covered by warranty for free repairs

#### ■ Performance parts for repair

The Company will retain performance parts for repair of the Speed Wi-Fi 5G X11 main unit and its related accessories for 4 years after discontinuation of production. "Performance parts for repair" refers to parts required for maintaining the functions of the product.

At the store of purchase, thoroughly check and read the name of the store of purchase, date of purchase and other necessary details on the warranty card, and be sure to keep it in a safe place

#### Repair and Delivery Support (for au contracts) A monthly membership in an after service system "Repair and Delivery Support" is available to ensure long-term

reliable use of au devices. This service provides expanded coverage for various troubles, such as malfunction, theft, or

See the au website for details on these services and monthly fees. https://www.au.com/mobile/service/kosho-funshitsu/ (in Japanese only)

- Membership applications are accepted only when purchasing an au device.
- · A cancelled membership cannot be renewed until you purchase another au device. · If you change models or purchase more devices, then only the most recently purchased au device is covered by this service.
- If ownership of an au device is transferred or inherited, then membership status in Repair and Delivery Support
- If you purchase a new au device, such as by changing models or purchasing more devices, then membership in
- Repair and Delivery Support is automatically cancelled for the au devices you used previously. · These services may change without advance notice.

The SIM card is lent to you by the telecommunications carrier to whom you are subscribed. In case of loss or damage, the card will be replaced at your expense. When a malfunction is suspected, or in case of theft or loss, contact the telecommunications carrier to whom you are subscribed.

# **Related Accessories**

The types of accessories that can be used to charge the product and connect it to a PC or the like are listed in the following table.

<For au contracts> X11 cradle (\*1)

NAR01PUA (sold separately TypeC Common AC Adapter 01 (\*2 0601POA (sold separately TypeC Common AC Adapter 02 (\*2)

<For contracts with WiMAX operators other than au> X11 cradle (\*1

NAR01PUU (sold separately TypeC Common AC Adapter 01 U<sup>(\*2)</sup> 0601PQV (sold separately

- (\*1) When connecting the product to the X11 cradle (sold separately), refer to the "X11 クレードル取扱説明書 (Instruction Manual of the cradle)" (Japanese).
- We recommend using a TypeC Common AC Adapter 01 (sold separately), a TypeC Common AC Adapter 01 U (sold separately) or a TypeC Common AC Adapter 02 (sold separately) when charging the product while it is set in the X11
- \* You can purchase related accessories through the au online shop. https://onlineshop.au.com/ (in Japanese only)

# Specific Absorption Rate (SAR) of Data Communication Terminal

This model Speed Wi-Fi 5G X11 conforms to a state-formulated technical standard relating to the hui absorption of radio waves and international guidelines for radiation protection

This data communication terminal is designed to conform to a state-formulated technical standard (\*1) relating to the human body absorption of radio waves, and tolerable limits for radiation protection that are recommended by equivalent international guidelines. These international guidelines have been worked out by the International Commission on Non-Ionizing Radiation Protection (ICNIRP), a partner to the World Health Organization (WHO), and their tolerable limits allow for an adequate factor of safety, regardless of the user's age or health conditions. The state-formulated technical standard and international guidelines establish such tolerable limits for radiation protection in terms of a Specific Absorption Rate (SAR), which represents the average rate at which energy is absorbed by the human body. This data communication has a SAR limit setting of 2.0W/kg. If this data communication termina is used under the conditions of normal use defined in this "Instruction Manual", the maximum SAR limit is 1.175 W/kg (\*2). Individual product models all satisfy their respective SAR limits, which may vary slightly from one models

Because data communication terminals are designed to fill the minimum transmitting power requirement for communicating with base stations for cellular phones, etc., their SAR normally gets lower while they carry on

When you communicate using this product, keep it at least 1.5 cm away from your body, with no intervening metallic

objects. This procedure has been verified to allow this data communication terminal to conform to the specifications of the state-formulated technical standard and the international quidelines for radiation protection. The World Health Organization states: "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as occurring due to mobile phone use.
